To Whom It May Concern:

Ninth Brain is a Software as a Service solution that offers a unique subscription in one system for learning management, credential tracking, workforce scheduling, quality improvement, employee health, forms, checklists and more. There is no other software in the market that offers all these components with one login and that is specialized to the EMS industry.

University of Mississippi Medical Center AirCare Helicopter Transport specifically utilizes the Ninth Brain system for many functions again in one login! AirCare can utilize Ninth Brain for functions such as:

- Risk Assessments
- Log a Run with Debrief forms, Utilization Review forms, GAMUT metric capturing, and Chart Reviews
- Incident Tracking with investigation and loop closure
- Forms such as Blood Product Administration Review, Clinical Peer Review, Daily Vehicle Checks, Evaluations, Transfer Compliance Monitoring Report, etc.
- Credential Tracking
- Distribution of company courses
- Assign Ninth Brain library of EMS courses
- And other tools driven by the need to be compliant in the industry

Ninth Brain Suite, LLC is the sole source provider for subscription to just Ninth Brain software. We do have a partnership with Quick Med Claims who can offer Ninth Brain to its clients. You must utilize Quick Med Claims billing services in order to obtain Ninth Brain software through that avenue.

If you have any further questions regarding this sole source letter, please feel free to contact us.

Sincerely,

Holly Taylor
