# MICROMEDEX<sup>®</sup> 2.0 Quick Reference Cards

### **CREATE YOUR SEARCH**

- 1. Simply type any term, phrase, or question into the **Search** box that is available on every page.
- 2. Create focused searches with:
  - A single term (such as a drug, condition, or laboratory test name)
  - Multiple terms (such as two drugs, or a drug and a condition)
  - A simple question
- 3. As you type, the drop-down list opens and makes suggestions based on what you have typed.
- 4. You can click on one of the suggestions, or simply keep typing the drug or substance. Click the **Search** button or press the Enter key to begin the search.
- 5. For more help, click the **Example Searches** link.

#### 360° VIEW DASHBOARD

- The 360° View Dashboard gathers all the related results for the search together into one compact view. When both summary and detailed drug information exists for a drug or substance, the search always presents the summary dashboard first by default.
- 2. When the drug was found in other Micromedex 2.0 content, the expandable header(s) display, along with the number of matches found. Click the header to open the list of results.

## DRUG INTERACTION SEARCHING

- 1. From any page, select the **Drug Interactions** tab.
- 2. Type the drug name (brand or generic) in the **Search** field.
- 3. Select the drug and click the Add button.
- 4. Repeat the process until all drugs are added. Then click the **Submit** button at the bottom right of the screen.

#### IV COMPATIBILITY SEARCHING

- 1. From any page, select the **IV Compatibility** tab.
- 2. Type the drug name (brand or generic) in the **Search** field.
- 3. Select the drug and click the Add button.
- 4. Repeat the process until all drugs are added. Then click the **Submit** button at the bottom right of the screen.
