Overview

Scholastic Learning Zone is a browser-based platform that allows teachers and students to access their subscriptions to different Scholastic educational resources. It is designed for customers with Scholastic subscriptions and is available from any computer with an Internet connection.

When a school subscribes to one or more of the products in the Scholastic Learning Zone, teachers and students may log in to the Learning Zone to access these products.

Scholastic Learning Zone administrators manage teacher and student profiles, subscriptions, and product access.

Logging In

Scholastic Learning Zone is browser-based and may be accessed from any computer with an Internet connection. To get started with Scholastic Learning Zone:

Use the URL in the Welcome email to launch Scholastic Learning Zone in the computer's browser program (see *page 26* for Scholastic Learning Zone System Requirements). Clicking the URL from the email opens a set password screen. Users set their Scholastic Learning Zone password and then are asked to log in, using their username and password they just set.

Users may also log in directly by going to educator.scholasticlearningzone.com (for educators) or www.scholasticlearningzone.com (for students). After entering the URL in the computer's browser program, the Country screen opens.

The screenshot shows the Scholastic Learning Zone homepage. At the top is the Scholastic Learning Zone logo with the tagline "FIND IT HERE". Below the logo is a navigation bar with links for "Scholastic", "Español", and "Logout". The main content area is divided into two columns. The left column is titled "Welcome to Scholastic Learning Zone" and contains a "Select Country" pull-down menu. The right column is titled "Customer Service" and lists contact information: "Phone from within US: 573-632-1687", "Phone from outside US: 646-330-5288", and the email "international@scholastic.com". At the bottom of the page is a small link for "Privacy Policy".

Select the country from the pull-down menu. Scholastic Learning Zone will automatically go to the Org ID Entry Screen upon country selection.

Enter the Org ID found in the Welcome email and click **Submit** to open the Login Screen.

To change the country displayed on the screen, click **Change Country** to return to the previous screen.

The screenshot shows the "Welcome to Scholastic Learning Zone" screen after a country has been selected. The "Country" is set to "Canada" with a link to "Change Country". Below this is a prompt to "Enter Your Org ID." followed by a text input field and a "Submit" button. At the bottom, there are two links: "Need help logging in?" and "Are you a group administrator? Click here to login".

On the Login Screen, enter the Scholastic Learning Zone username and password received from the Scholastic Learning Zone administrator.

A screenshot of the login screen. At the top is a blue header with the text "Welcome to Scholastic Learning Zone". Below this, it says "School: Product test [Change Org]" and "By Clicking Login I agree to and accept the Privacy Policy". There are two input fields: "Username" and "Password". Below the fields is a blue "Login" button. At the bottom, there are two links: "Forgot username or password?" and "Are you a group administrator? Click here to login".

At first login, administrators should use the set password link found on the Welcome email, then set their password and accept the terms and conditions on the Set Password Screen.

A screenshot of the "Set Password" screen. It has a blue header with the text "Set Password". Below the header, it says "Please set your password". There are two input fields: "Password" and "Retype password". Below the fields is a blue "Enter" button. At the bottom, it says "By clicking Enter, I agree to and accept the Privacy Policy".

Once logged in, the Scholastic Learning Zone Dashboard opens.

The Dashboard

The Dashboard provides access to all of the products and functions of the Scholastic Learning Zone. Links at the top of the Dashboard allow teachers and administrators to view their profiles, visit the Scholastic home website for the school's country, view the page in Spanish, get help with the site, or logout of the Learning Zone. Clicking the Scholastic Learning Zone logo from any screen in the Learning Zone returns the user to the Dashboard.

Teacher and Administrator Dashboard

The dashboard is divided into two main sections. On the left is a sidebar titled "My Students" with a sub-link "Literacy Pro Demo School 3" and three buttons: "Manage Users", "Manage Calendar", and "Manage Registrations". The main content area on the right is titled "Hi, Max Buckland" and "Literacy Pro Demo School 3 (86X7)". Below this is a "My Zone" section with two icons: "Literacy Pro" and "Literacy Pro Library". Underneath is a "Total Usage: Last 4 Weeks" section containing a table with usage data for two products.

	Average Session/Student	Average Session Time/Student	Total Time/Student
	2	14	28
	1	0	0

See more detailed reporting data >

The teacher and administrator dashboard is made up of the following fields:

- **My Zone** contains icons for the products available to the user. Click an icon to open the product in a separate browser window.
- **Total Usage: Last 4 Weeks** shows student usage in the organization's subscribed Scholastic products. Teachers see class data, and administrators see school data. Click "See more detailed reporting data" to download a usage report for the school.
- **Manage Users** opens the Manage User Accounts Screen
- **Manage Calendar** opens the Manage Calendar window
- **Manage Registrations** opens the Manage Registrations window for offline products
- **Also Available in the Zone** shows other products available from Scholastic.

The Total Usage field on the Dashboard displays usage data for schools, classes, and students. Administrators and teachers may customize their data view by clicking a student, group, class, or school name in the **My Students** field (or **My Schools** field for group administrators). Group administrators need to select a school to view usage data.

Click the arrow icons at the top of each column to sort data. This allows the data to be viewed from greatest time to least time, or vice versa.

To download a detailed report of the school's usage history, click "See more detailed reporting data."

Select a time period and click **Run Report**. A CSV file will automatically download, containing usage by product and broken out into number of minutes and number of sessions.

Clicking **Manage Users** from the Dashboard opens the **All Accounts** screen. From here, users may create new user accounts, import user data, edit current user accounts, edit a school's educational system, move students up or down a year/grade level, organize users into classes, and subscribe users to products.

All Accounts page is organized by user to help reduce the amount of navigation required to manage specific user types.

Each user tab contains three major functions with several smaller functions available for individual users.

- 1) **Adding Users:** To add an account, first navigate to the desired user type (student, teacher, or administrator), and then click "Add (*User type*)". From here a small dropdown menu will appear with the options to add a user manually or via CSV file upload (teachers and students only).

Add Student Subscription Move To

Import CSV File Add Manually

LAST NAME USERNAME

Light alight

Depending on which option you select, you will either need to enter in the specific user's information, or upload the CSV file containing multiple users' information.

Importing User Data

Administrators may import teachers' or students' data from a CSV file (such as Microsoft Excel). To import a CSV file:

From the Manage Users Screen, select the user type you wish to add.

Use the pull-down menu to select the type of user data being imported: student or teacher. Click **Upload CSV file** and navigate to the CSV file to be imported.

The CSV file should contain the following fields for each user at the school level:

For students:

- **First Name:** The student's first name.
- **Last Name:** The student's last name.
- **Username:** The student's username.
- **Password:** Passwords must be between six and 16 characters, may not include the first or last name on the account, and must include a numeral.
- **User ID:** The school's own User IDs through another system like an SIS or LMS. This is designed to capture that information for cross-reference purposes.
- **Year/Grade:** This field is optional. The student's year/grade.*
- **Lexile:** This field is optional. The student's Lexile measure.*
- **Class:** This field is optional. The name of the student's class.*

For teachers:

- **First Name:** The teacher's first name.
- **Last Name:** The teacher's last name.
- **Username:** The teacher's username.
- **Email:** The teacher's email address.
- **Class:** This field is optional. The name of the teacher's class.*

*If one of these optional fields has no values, the column can be deleted from the file.

When the correct file is displayed in the Choose File window, click **Import** to import the file.

Import Students

Import Teachers

Your CSV file should look something like this:

	A	B	C	D	E	F	G	H	I	J	K	L
	FIRST_NAME	LAST_NAME	USERNAME	PASSWORD	USER_ID	YEAR/GRADE	LEXILE	CLASS	CLASS	CLASS	CLASS	CLASS
2	Lisa	Jones	Lisa_Jones	welcome1	student_10221	PK	224	English 101	Math Three	Math One	Math Two	
3	James	Jones	infinity	welcome1	student_18292	K	790					
4	Xiaho	Chen	xChen0110	welcome1	student_19322	1	276	Math One	Math Two	Math Three	English 101	Math Five
5	Francoise	Martin	franMartin	welcome1	student_39333	2	48	English 101	Math One	Math Five		
6	Abe	Bose	bose_dk	welcome1	student_98989	3	965	English 101	Math Five			

Upload CSV file

Download Student CSV Template

When the file is imported successfully, the Confirmation Screen appears, displaying a list of all imported user profiles. If the user data is correct, click **Confirm** to complete the import.

Import Students

Import Teachers

File Uploaded! But can you change these 20 things?

FIRST NAME	LAST NAME	USER NAME	PASSWORD	USER ID	YEAR/GRADE	LEXILE	CLASS	EDIT
Diana	Barry	dbarry	Welcome1	dbarry	p4	50	Class 4A	edit
Jackson	Belleville	jbelle	Welcome1	jbelle	p4	613	Class 4A	edit
Jen	Chen	jenchon	Welcome1	jenchon	p4	895	Class 4A	edit

Lyla	Garrity	lgarrity	Welcome1	lgarrity	p4	1086	Class 4A	edit

If the spreadsheet file contains formatting errors, an error message appears on the screen. Use the **Edit** or **Delete** links to correct any data errors.

Click **Cancel** to cancel the import and start over. Click **Save** to save the in-progress import and continue editing it at another time.

Once the errors are corrected, click the **Confirm** button to complete the import.

When the spreadsheet file is imported successfully, a screen appears showing the imported user data.

Adding Single Users

In addition to importing users, administrators may manually create individual user profiles. From the All Accounts screen click the user type you want to add and then click **Add Manually**.

A dropdown menu for adding students. The top button is "Add Student" with a downward arrow. Below it, the menu is open, showing two options: "Import CSV file" and "Add Manually".

Add Student ▾
Import CSV file
Add Manually

A form titled "Add Students" with a tabbed interface. The "Add Students" tab is selected. The form is divided into three sections: "Basic Information", "Move to..", and "Subscribe to..".

☐ Literacy Pro Library - US		

Fill in the various fields, being sure to create a unique username and password. Passwords must be between six and 16 characters, may not include the first or last name on the account, and must include a numeral.

- 2) **Subscribing Users:** To subscribe a user, first navigate to the desired user type (student, teacher, or administrator), and then click “Subscription”. You will now see a drop-down menu with several subscription options: “Subscribe/Unsubscribe a Class” and “Subscribe/Unsubscribe a Student”.

To subscribe a student, first choose the student from the users list by clicking the small box to the left of the user's name. To subscribe a class, you can simply click on “Subscribe a Class(es)”. From here you can select the product you want your users to be subscribed to and then click “Subscribe”.

- 3) **Moving Users:** In order to move a student or teacher to a specific class, first click navigate to the desired user tab. Then select from the user list the student(s)/teacher(s) that you wish to move. Now you can click the “Move To” button and select one or multiple class(es) you wish to move your users to. You can also follow the same procedure to remove a user from a class, but instead of clicking “Move To” you can click “Remove From”.

A screenshot of a "Move To" dialog box. It has a title bar with "Move To" and a link "New Class". Below the title bar is a search input field. A list box contains one item: "Class P1 (3)" with a checked checkbox. At the bottom are "Cancel" and "Apply" buttons.

4) **Other Features:**

- a. **Delete:** While on the **All Accounts** page, you can delete users by clicking on the trash icon. This will allow you to either delete the user forever or disable the user until you decide to reactivate their account.
- b. **Export:** You can either export an entire list of users, or export specific users by checking the box next to their username.
- c. **Edit:** To the far right of every user's information is the “edit” button. This is where you can edit user info such as username, password, and email. This is also where you can give a teacher full administrator privileges.
- d. **Sort:** Hovering over the “sort” icon will display all of the available information by which your user list can be organized (ex: first name, class, subscriptions, etc.)

Deleting and Reactivating Users

☐	FIRST NAME	LAST NAME	USERNAME	PASSWORD	YEAR/GRADE	CLASS	EDIT
☐	harry	potter	HarryPotter	welcome1	Secondary 1/Junior Secondary 1	English	edit

To delete a user profile, click the **Delete** link at the end of the row on the User Profile Screen.

Delete

This is what'll happen to Lisa_Jones:

☐ Disable Students for now

☒ Delete Students forever

☐ All the records/data they have on our products will be erased.
 ☐ Information you have entered about them will be deleted.
 ☐ All of their subscriptions will be cancelled.

Cancel

Confirm

A pop-up will appear, asking whether to deactivate the user or delete the user forever.

Deactivating the user will give you the option to reactivate the user.

To find deactivated users, you can either search their name in the search bar, or you can go to the bottom of the filter list and click "Show Deactivated Accounts"

Filter Accounts

Show Deactivated Accounts

When searching for a deactivated user, the **Delete** column will show the user as **Deactivated**.

☐	FIRST NAME	LAST NAME	USERNAME	PASSWORD	USER ID	STATUS	EDIT
☐	James	Jones	infinity	welcome1	student_18292	Deactivated	edit

Clicking the **Deactivated** link will open a pop-up, asking whether to reactivate the user or delete the user forever.

A modal dialog box titled "Delete" with a close button (X) in the top right corner. The text inside says "This is what'll happen to infinity:". Below this text are two radio button options: "Reactivate Student" and "Delete Students forever". At the bottom of the dialog are two buttons: "Cancel" and "Confirm".

Delete

This is what'll happen to infinity:

☐ Reactivate Student

☐ Delete Students forever

Cancel Confirm

Reactivating the user will reactivate that user's account. Deleting the user forever at any point will delete all of the user's data and will prevent the user from ever being reactivated.

Show All Accounts

To view all users, click the **Show All Accounts** button on the left of the All Accounts page

A rectangular button with a light blue border and the text "Show all Accounts" in blue.

On the All Accounts screen, select the user type to view.

A user interface for selecting user types. It features three tabs: "Students", "Teachers", and "Administrators". The "Students" tab is currently selected and highlighted. Below the tabs are four buttons: "Add Student" with a dropdown arrow, "Subscription" with a dropdown arrow, "Move to" with a dropdown arrow, and a trash can icon.

Students Teachers Administrators

Add Student ▾ Subscription ▾ Move to ▾ 

Selecting Teacher or Administrator will display a table of all teachers or administrators in the school, along with a link to download a list of all teachers or all administrators in the school.

Selecting Students will provide a link to download a list of all students in the school. Additional filters can be selected to view all the students in a particular year/grade or class.

Once a filter is selected, a table of the students that fit that filter will display.

Search Function

While in **All Accounts**, you can search for specific users and classes by typing the user/class name into the search bar on the right hand side of the screen.

A screenshot of a search bar with the letter 'a' entered. A dropdown menu is open, showing four suggestions: "Ali in People", "alight in People" (highlighted in blue), "Barry in People", and "Class P1 in Classes". A red search button with a magnifying glass icon is to the right of the search bar.

There is also a filter list on the left hand side of the screen to help with searching for users based on their classes and subscriptions. This is also where new classes can be added by clicking "New Class" at the top of the filter list.

A screenshot of a filter list sidebar. The sidebar has a title "Filter Class" and a link "Show All Accounts". Below this, there are two checkboxes: "English (2)" and "English 101 (1)". To the right of these is an "Edit" link. Below this section is another section titled "Filter Years/Grades" with a link "Edit". It contains three checkboxes: "Kindergarten", "Primary 1", and "Primary 2", followed by a "More Grades" link. Below that is a section titled "Filter Subscriptions" with a link "Show Unsubscribed Accounts". It contains two checkboxes: "Literacy Pro (993/1000 Available)" and "Literacy Pro Library - CW (993/1000 Available)". At the bottom is a section titled "Filter Accounts" with a link "Show Deactivated Accounts". The "New Class" link at the top of the "Filter Class" section is circled in red.

To subscribe a teacher or administrator to a Scholastic product, click the check box under the product's name in the user's row. To subscribe all the teachers and administrators to the product, click **Subscribe all** under the product name.

To unsubscribe a teacher or administrator from a product, click the check box under the product's name in the user's row to clear the box. To unsubscribe all the teachers and administrators from a product, click **Unsubscribe all** under the product name.

Administrators and teachers may also subscribe themselves to products by going to **My Profile** and checking the boxes next to the products to which they want to be subscribed.

Unchecking the box next to a product will unsubscribe the administrator or teacher from that product.

Teacher Settings

Teachers can perform the following administrative functions, if granted permission by the school administrator:

- **Manage School:** Allow teachers to edit the school's educational system, move all students up or down a year/grade level, and edit the school calendar.
- **Manage Students:** Allow teachers to create, edit, search for, and disable student users.
- **Manage Classes:** Allow teachers to create, edit, and delete classes, and to add users to classes.
- **Manage Teachers:** Allow teachers to create, mass import, edit, search for, disable, and manage permissions for other teachers.
- **Import Students:** Allow teachers to mass import student users from a spreadsheet.
- **Subscribe Users:** Allow teachers to subscribe users to products.
- **Manage Offline Registrations:** Allow teachers to manage offline registrations.

Manage School Calendar

To set up a school calendar, click on the **Manage calendar** button on the homepage. A pop-up will open.

If no time zone is set, type in the box or use the dropdown menu to select a time zone for the organization. Click Save to save changes.

A screenshot of the "Manage Calendar" pop-up window. At the top, it says "Manage Calendar" with a close button (X). Below that, it shows "Time Zone: New_York (GMT -05:00 America/New_York)" with an "Edit" link. The main section has three fields: "Name of School Year: (e.g., 2013-14 School Year)" with the value "School Calendar 2016", "Start Date" with the value "2015-08-01" and a calendar icon, and "End Date" with the value "2016-06-30" and a calendar icon. There is a vertical scrollbar on the right side.

To edit the time zone, click Edit. The dropdown will reappear. Type in the box or use the dropdown menu to select a new time zone and click Save to save changes.

The school year's calendar dates are automatically set to be the default calendar for that country. If these dates are not correct, click Edit.

A screenshot of the "Add Another Marking Period" pop-up window. At the top, it says "Add Another Marking Period". Below that, it has three fields: "Name of Marking Period: (e.g., quarter 1)" with an empty text box, "Start Date" with the value "Start date" and a calendar icon, and "End Date" with the value "End date" and a calendar icon. At the bottom, there are "Cancel" and "Save" buttons. A "Close" button is located at the bottom right of the window.

Enter a name for the Name of School Year, and click the calendar icons to select new dates for the school year. Click **Save** to save changes.

To set up marking periods within the school year, click **Add Marking Period**. Enter a name for the marking period and select the start and end dates. Click **Save** to save changes.

Once the school year and marking periods are set up, click **Close** to close the window.

Manage Registrations

Users of PR1ME Mathematics Interactive Edition (Offline) can manage product registrations by clicking on the **Manage registrations** button on the homepage. Select an offline product using the dropdown.

A screenshot of a web application dialog box titled "Manage Registrations" with a close button (X) in the top right corner. The dialog has a section titled "Offline Registrations" with a sub-instruction: "Select an offline product using the dropdown menu below to view the registration details." Below this is a dropdown menu with the text "Select Product" and a downward arrow. Underneath the dropdown is a table with five columns: "USER", "MACHINE UUID", "MACHINE NAME", "REGISTRATION ON", and "LAST VERIFIED ON". The table is currently empty. At the bottom of the dialog is a "Close" button.

USER	MACHINE UUID	MACHINE NAME	REGISTRATION ON	LAST VERIFIED ON
------	--------------	--------------	-----------------	------------------

The users and machines registered to that product will display. Click **Delete** to delete the user and machine's registration to the product. That user and machine will no longer be able to access the product.

Scholastic Learning Zone Technical Requirements

The minimum technical requirements for Scholastic Learning Zone (SLZ) are:

- **Supported browsers:** Internet Explorer 8.x or later, Safari 5.x or later, Firefox 4.x or later, Chrome 17 or later
- **Operating System:** Macintosh® OS X 10.5 or later; Windows Vista Professional, Windows 7 Professional, iOS6.x or higher, Android 4.x or higher
- **Memory:** 512MB to 1GB of RAM, based on OS version
- **CPU:** Intel dual-core or later (PPC Macintosh computers not supported)
- **Network:** Network Interface Card supporting TCP/IP (wireless networks, including 802.11a, 802.11g, or 802.11n, are supported, but application performance may be limited by the network's bandwidth capacity)
- **Screen:** 1024 x 768 resolution or higher
- **Other:** Headsets or speakers required for certain audio/visual media in most applications

All workstation browsers must have the following settings enabled:

- **Pop-Up Blockers:** Must be disabled, or Student and Educator Access pages excepted
- **Security Level Settings:** Default settings supported; IE Maximum Security levels not supported
- **Images Enabled:** Default settings are supported; Image Display must not be turned off
- **Privacy Settings:** Default settings supported; Maximum Privacy Setting (disabling cookies) not supported
- **Mixed Content:** Should allow secure content (e.g. https://)

Some programs on Scholastic Learning Zone have additional requirements in addition to the SLZ requirements above:

Program	Additional Requirements
Scholastic Literacy Pro Scholastic Reading Pro Scholastic Reading Inventory BookFlix TrueFlix Grolier Online	Internet Explorer 8 and lower are not supported
Literacy Pro Library Reading Pro Library	Internet Explorer 8 and lower are not supported Other: Headsets or speakers required for certain audio/visual media in Literacy Pro Library/Reading Pro Library. Recording facilities are not supported in iOS tablets.

Thin Client workstations are not certified or recommended for SLZ programs. SLZ supports a wide range of client workstations running many different processors and operating systems. As a general rule, any workstation or laptop purchased in the last four years should be capable of running any SLZ application.

Organizations considering using older workstations should consider the following factors:

- 1.** CPU clock speed is not a reliable indicator of relative performance. The slowest Intel® Core 2 Duo is more powerful than the fastest Pentium® 4. A Core 2 Duo at 2.13GHz is almost twice as fast as a P4 at 2.8GHz. Workstations that run an Intel Pentium M, Pentium D, or Intel Celeron® must at minimum have a clock speed and RAM that are the same or greater than what is recommended for a Pentium 4.
- 2.** Workstations, laptops, or netbooks with Intel Atom processors (or equivalent) may or may not be suitable for running SLZ applications depending on the processor's version, clock speed, and supporting hardware. Scholastic recommends testing any Atom-based system with the application(s) you intend to use.

Bandwidth Requirements: BookFlix, TrueFlix, and Grolier Online

Scholastic Learning Zone subscriptions utilize a data center to host your applications, with workstations connecting to the data center over the Internet. All SLZ programs use browser-based clients. Therefore, large media files (video, audio, animations) must be sent to the client over the network.

The number of media files that can be loaded simultaneously depends on many factors, including connection speed, the amount of other activity that is taking place on a school's or library's computer network at a given time, and whether or not a school or library has a dedicated Internet connection or shares the connection with other schools or libraries.

To reduce network congestion, it is recommended that customers plan for network utilization by verifying the number of SLZ users (seats) against existing network loads in light of the following data throughput requirements:

Data Throughput Per Student	TrueFlix	BookFlix	Grolier Online
Average Duration (mins)	20.28	20.13	16.38
Average Outbound Data (kbps)	2	3.7	186
Average Inbound Data (kbps)	83*	45*	87*
Scholastic Recommendation (kbps/active workstation)	100	100	100

* These numbers represent averages and may fluctuate greatly based on the number of media files utilized in each application.

In addition, the following guidelines should be used to determine how many BookFlix or TrueFlix videos can be streamed simultaneously. *Please note that these are average usage guidelines only; actual performance may vary based on factors listed above.*

Connection Speed	Maximum # of Simultaneous Videos That Can Be Streamed
T1 (1.5 mbps)	10
Cable Modem (4-5 mbps)	60
T3 (44.7 mbps)	100
Gigabit (1000 mbps)	Unlimited

Before you begin your BookFlix or TrueFlix subscription, you may request a free trial to make sure the videos run the way they are supposed to on your computers.

To calculate the total number of concurrent students that can use an application you will need to know your Internet connection speed (in Mega bits per second or Mbps) and the average data inbound data usage for the application per student on average (in Kilo bits per second or Kbps). The formula $((\text{internet connection speed}) \times 1024) / (\text{application average inbound data use}) = \sim$ number of students that can connect concurrently. Scholastic suggests as baseline average of 100Kbps per student. This means you can estimate a T1 connection $((1.5 \text{ Kbps}) \times 1024) / 100 = \sim 15$ students.

Proxy Settings

All firewalls, proxies and browsers should allow the following domains through to the client in order to provide the optimum experience with the SLZ 1.0 applications:

Domain Names

scholasticlearningzone.asia

scholasticlearningzone.ca

scholasticlearningzone.co.uk

scholasticlearningzone.com

scholasticlearningzone.com.au

scgcdn.http.internapcdn.net

*.grolier.com

*.digital.scholastic.com

Other IP Ranges

63.251.75.0/24 (63.251.75.1 - .255)

70.42.132.0/24 (70.42.132.0 - .255)

64.94.9.96/27 (64.94.9.97 - .127)

69.28.128.0/18

68.142.64.0/18

208.111.128.0/18

Customer Support

For questions or other support needs with Scholastic Learning Zone and its affiliated products, contact Scholastic Customer Support to speak to a representative.
