SLC.me

About

SLC.me is your SLC Student Portal. Here you will gain access to your email, blackboard, timetables, booklists, grades, college services, library services, and more! Your SLC username and password will allow you to log in to any college-owned computers, your SLC.me student portal, and other resources like WIFI.

Accessing SLC.ME

How to Login

As a new student, your **username and temporary password** are initially sent to your *personal* email account.

Your default username and password will be in the following format:

Username: There are two formats for usernames, either it will be a five-digit alphanumeric code (example: 11aa1) or it will be your first initial, last name, and day of your birthday (example: John Doe, birthday June 07: Jdoe07). If you are unsure of your username, please contact the IT Student Help Desk at SLC.me@sl.on.ca or ext. 4357.

Password: Your default password will be 0+your student number i.e. 01234567

New password

The first time you log in with this password, you will be prompted to change it to a new password. Please **enter a new password** that is complex and safeguard it in order to protect your personal information. The new password must be at least 8 characters long, must contain one upper case, one lower case and one number, be something you have never used for the college before, and should not contain any special characters, such as @\$%!)

Lockout

An *incorrect username or password* entered **5 times** results in an account being locked out. Usually this happens when a student has forgotten their password, either because they don't use their SLC.me account often, or they've just changed their password and then forgot what they changed it to. Users logging into a campus computer will see the error message *"The referenced account has been locked out"*. Users logging into SLC.me will see the error message *"Authentication Failed"*.

If you have any problems logging in to your SLC account, please contact the IT Student Service Desk for assistance.
