

AT&T Wi-Fi: At A Glance

AT&T Wi-Fi helps keep you connected 24/7 to the information that matters most, even when you're on the go. AT&T is an industry leader in Wi-Fi with the nation's largest Wi-Fi network*. With unlimited access to our U.S. hotspots included for millions of our customers, we let you turn your broadband connection at home into literally thousands of connections coast-to-coast. It's a combination of speed, mobility, access and value for our customers.

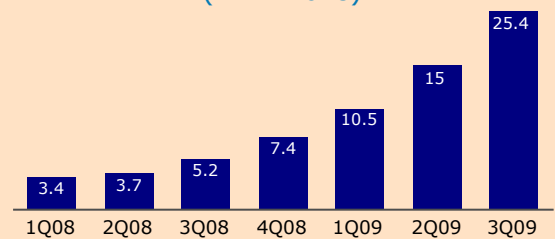

The Nation's Largest Wi-Fi Network

- More than **20,000 U.S. hotspots** with locations in **all 50 states**.
- **79 U.S. airports** and **389 airports** around the world through roaming agreements.
- Popular locations such as **Starbucks, hotels, major airports and more**.
- **Nearly 27 million** AT&T customers receive access to our domestic hotspots included with qualifying plans.

Wi-Fi Connections and Popularity

- **More than 25 million** AT&T Wi-Fi connections in 3Q09.
- **66 percent** increase in connections from 2Q09.
- **60 percent** of all AT&T Wi-Fi connections in the third quarter were made from integrated devices, up from 49 percent in the second quarter.
- **51 million** connections since the beginning of 2009 — more than double the connections for all of 2008.

How to Connect on your Laptop

1. Click the computer icon on the bottom right hand side of your screen to search for available Wi-Fi networks. Most hotspots are accessible in a range of 150-200 feet.
2. Select the "attwifi" network ID.
3. Open your Internet browser.
4. Qualified AT&T customers will be able to enter their primary Internet account's username and password to activate the Wi-Fi connection at no charge.
5. Other customers will be prompted to select a Wi-Fi plan to activate service.

For a complete list of AT&T Wi-Fi locations, visit www.attwifi.com.

*Largest Wi-Fi network claim based on non-municipal company owned and operated hotspots. A Wi-Fi enabled device required. Other restrictions apply.
