

CSG WORKFORCE EXPRESS

OPTIMIZE YOUR ENTIRE FIELD SERVICE
OPERATION FROM A SINGLE SOLUTION

TOGETHER, YOU WIN.

IT'S 10 A.M.—DO YOU KNOW WHERE YOUR TECHNICIANS ARE? NEITHER DO YOUR CUSTOMERS

The way to succeed at field service sounds simple enough: delight the customer. But creating a great front-facing experience requires robust back-end systems and processes that can adapt to meet the needs of the customer and the job at hand.

This is difficult with changing conditions: at least 20% of daily scheduled appointments will change due to customer cancellations, no shows and reschedules. The cost impacts of these shifts are enormous, equating to millions of dollars in lost productivity every year (not to mention lower customer satisfaction).

With **CSG Workforce Express**, the industry's leading and proven field service management platform, CSPs can respond to the complexities of managing changing conditions easily and cost-effectively—and provide a great customer experience.

73% MORE SAME DAY APPOINTMENTS

THE CSG DIFFERENCE: OPTIMIZED APPOINTMENT SCHEDULING

Historical data just doesn't cut it in the digital world, where conditions change not just day to day, but minute to minute. Regardless of how well you plan your service day, you need tools that can dynamically optimize as your day goes on. Optimized Appointment Scheduling (OAS) improves tech utilization and minimizes productivity gaps/idle time without overbooking, driving a better customer experience and technician efficiencies. **Lower costs, improve productivity** and uncover **revenue opportunities** within your existing work order schedule.

ABERDEEN GROUP

"47% OF ORGANIZATIONS WANT TO IMPROVE INTERACTIONS WITH THE CUSTOMER BY PROVIDING BETTER VISIBILITY INTO OPERATIONS."

OAS improves productivity and lowers costs by dynamically choreographing every aspect of field resources, scheduled appointments and factors such as traffic—and proactively addressing changes in real-time. The solution then automatically reallocates resources to those unfilled slots, ensuring that technicians fill every minute of their day with booked appointments
